

YA'FI

YA'Fi by **YAFABRIK**
Distributed by WaterRower

Much more than just a punching bag, the YA'Fi is a ONE OF A KIND **training tower**. The Ya'Fi was developed in France by a team of combat sports specialists. It was designed to allow users to execute all **boxing kick techniques**, as well as **stretching**, sheathing, **fitness** and **bodybuilding** exercises.

Its height of 1.75 m makes it a complete and loyal sports partner.

It meets the needs of amateur athletes as well as the most experienced. Allowing them to train and let off steam without a fight while maintaining the same intensity, cardio efficiency and muscular work similar to a boxing fight.

CHARACTERISTIC

A specific filling made of memory foam that absorbs shocks and impacts and prevents musculoskeletal trauma. Easy to handle, it can be moved vertically or laying down on the floor.

ENVELOPE

To make the YA'Fi even more esthetic, we covered the bag with a vegan leather envelope. The whole being hand stitched and assembled in our workshop in Lille.

Always having in mind an eco-responsible approach, the straps and cuffs are made of upcycled materials.

UTILISATION

2 straps and 4 cuffs cleverly distributed over the bag used with series of accessories will multiply the exercise possibilities.

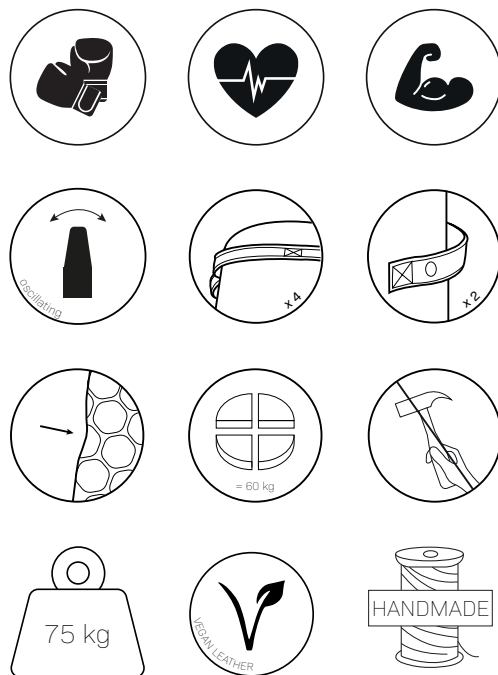

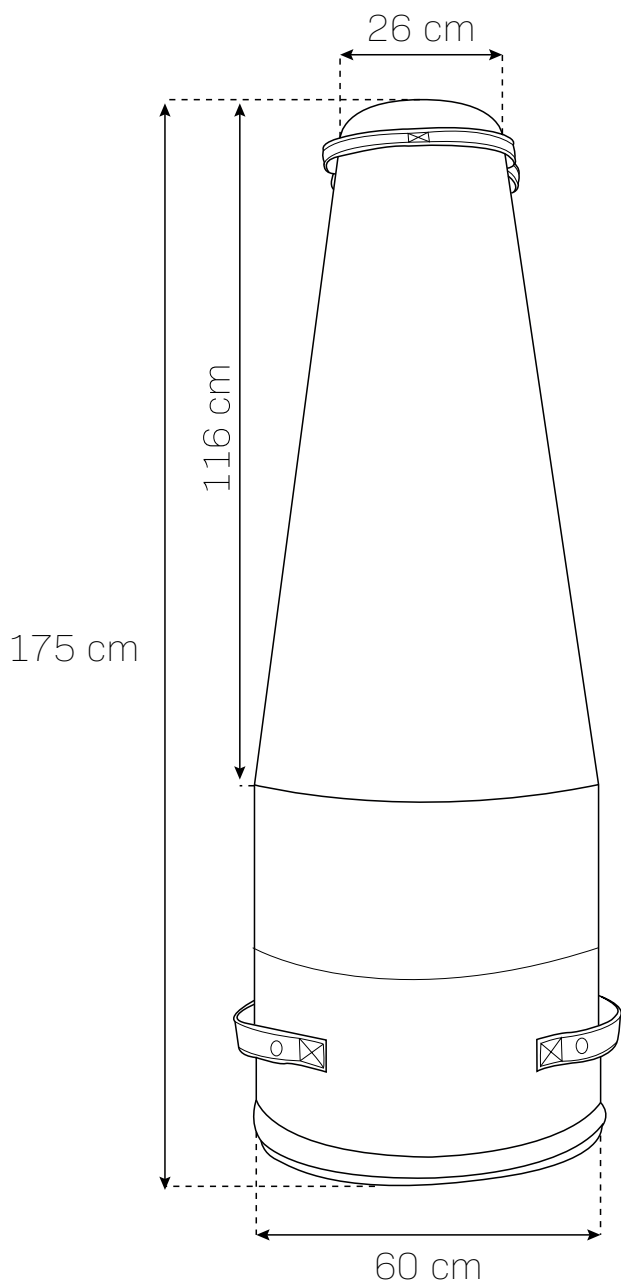

COMBAT SPORTS - BOXE - FITNESS - CARDIO - PILATES - STRETCHING
