

YA'MAT

YA'Mat & YA'Belt by YA'FABRIK

The practice of yoga and pilates allows your body to quickly fully recharge, to seek energy and concentrate it in your body.

The YA'Mat is a sports mat and perfect for yoga practice. Made with natural rubber covered with cork, it was imagined and designed in our office for optimal sensations during practice.

Leading to the harmony of Man with the world, yoga is a true path of life comprising several stages all leading to physical and mental well-being.

ADVANTAGES

The YA'Mat unrolls very easily and does not stain which allows it to be placed directly flat on the ground without having to reposition it. Once unrolled, it will not move nor slip. It will be your best partner for your yoga session!

ORIGIN

The first Yogis in India practiced yoga on plaited mats of plants, symbolizing the earth covered with animal skin to symbolize strength and energy. This allowed them to concentrate all the energy of the earth during their practice.

To trace the origins of the yoga, we have selected for the YA'Mat a cork from southern Europe's oaks.

As a natural source of energy, the cork oak regenerates every 10 years, there is no need to cut trees, only its bark is removed and then treated.

CORK

Cork is an absorbent material, it does not settle under the effect of shocks and has the particularity of having an elastic memory.

It also has clean natural properties, antimicrobial, waterproof, anti odor, it is very easy to preserve and durable.

ACCESSORIES

We imagined the YA'Belt as a travel strap for your YA'Mat. Manufactured in our workshop, it is available in Vegan Leather or Natural Leather.

It easily fits around your rolled mat and will allow you to wear it slung across the body, over the shoulder or at arm's length.

Accessories can be added to the YA'Belt for hanging keys, bottles, your badges or whatever you want.

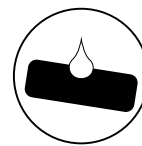

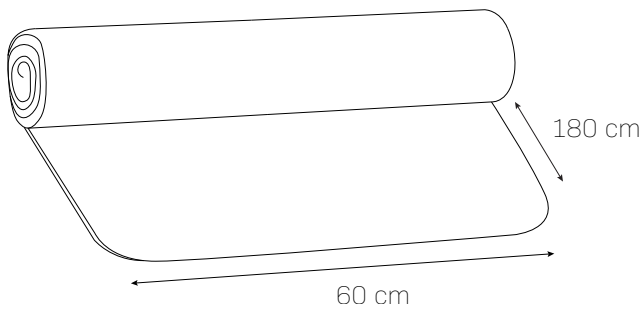

Plain or two-tone, create the YA'Belt that suits you!
It can be customized upon request to fit one's wishes.
